Experience

MERN FULL-STACK DEVELOPER

Snowa Technologies Pvt. Ltd.

📅 Sep 2023 – Present 📍 HYD, India

- Developed responsive web pages using React.js, MUI, SASS, and Redux to deliver dynamic user interfaces
- Built and maintained RESTful APIs with Node.js and Express.js, ensuring efficient backend functionality.
- Managed MongoDB operations, integrated frontend and backend, and ensured high code quality, performance, and cross-browser compatibility.

Recent Projects

REALTIME-CHAT-APPLICATION

- 📅 Nov 2024 – Nov 2024 📍 HYD, India
- Developed a real-time chat application with login, signup, and a chat dashboard
 - Enabled users to chat with others and create groups for collaborative discussions.
 - Utilized React.js, MongoDB, Redux, MUI, SASS, Express.js, Node.js, and WebSocket for real-time communication and seamless user interaction.

🐙 GitHub

GROCERY-STORE

- 📅 Oct 2024 – Oct 2024 📍 HYD, India
- Developed an online grocery web application with features like login, signup, dashboard, and cart functionality
 - Enabled users to select products, add them to the cart, and make payments using Stripe.
 - Implemented JWT authentication and cookie-based sessions for secure user access.
 - Utilized Next.js, MongoDB, MUI, SASS, Redux, and Node.js to build a dynamic e-commerce platform.

🐙 GitHub

PERSONAL-WEBSITE

- 📅 Sep 2024 – Sep 2024 📍 HYD, India
- Built a personal portfolio website using Next.js and Tailwind CSS, allowing visitors to message me and download my resume directly.
 - Designed and developed the site to highlight my projects, skills, and achievements, showcasing my expertise with React.js and Material-UI.
